S. P. MAY SELL OIL COMPANY TO UNION

Report That Associated Concern Is To Be Acquired Soon

That negotiations are pending for the acquisition of the Associated Oil by the Union Oil Company of California is the story that has been received with much interest in Honolulu, where the Associated, the Union and the Standard are all heavily interested, as well as throughout the islands.

According to this story matters have reached such a stage that actual consummation of the deal, which will be one of the largest put through in years, is expected any day.

The Associated Oil is controlled by the Southern Pacific Company, which owns \$20,000,000 of the \$40,000,000 worth of outstanding common stock. The Union Oil Company of California has an authorized capital of \$50,000,000, so that the amalgamation of these two concerns will result in the establishment of probably the greatest competitor the Standard ever had.

Just what the terms of the consolidation will be cannot be learned, but it is said on the coast that the proposal being considered involves turning over a large amount of cash to the Associated Oil interests.

Acquisition of the Associated by the Union will not be relished by the Standard Oil, which has had its eyes on the Union property for years, but was afraid to take it over, lest such action stir up public indignation and excite further attacks on the company by politicians, says one report from California.

Interests controlling the Union have considered the advisability of acquiring the Associated for long time. The Union people entered into extended negotiations about a year ago, with a view to absorbing the property, but these negotiations were broken off because there was a divided opinion among the leading stockholders of the Union about the wisdom of carrying it out.

More recently, though, the scheme has been looked on with increased favor.

S. P. Willing to Sell. It is understood that the Southern Pacific Company is willing to part with the Associated because of the increased pressure being brought by the Government on railroads owning interests other than those doing a transportation business.

Action by the government in forcing the coal railroads to segregate their coal properties, together with the passage of the Panama Canal enactment, which directs the railroads to divest themselves of their steamship properties, is accepted as fore runners to a demand that railroads interested in oil companies dispose of them also.

Another reason why the Southern Pacific might allow the Associated to go to the Union is that it is not receiving any dividends on its \$20,000,000 worth of shares. Dividends of \$1.50 were paid on February 1 and August 1, 1906, February 1 and March 1, 1907; but none has been declared since then.

Union a Sea Concern. The three largest oil companies in California are the Standard, the Associated and the Union. All are competitors in the full sense of the word. The Union is engaged mainly in deliveries of oil by sea. Its refining operations are small compared with those of the Standard.

The Associated Company's business is mostly the sale of fuel oil delivered by rail. It occupies the strongest position in that field because of its alliance with the Southern Pacific.

Standard Oil's stronghold is its favorable position for the sale of refined products and their distribution.

This concern has ordered the construction of a number of new ships. This may be a preliminary counter movement based on the knowledge of the forthcoming absorption of the Associated by the Union.

Control of the Union is held in Los Angeles, so that the announcement of the consummation of the impending deal must come from there.

BIRTHDAY OF LATE EMPEROR WILL BE DECREED HOLIDAY

It is the universal desire of the Japanese, says the Hochi, that the birthday of the late Emperor should be observed in perpetuity, and the Court is taking up the question in view of the fact that His Majesty's achievements are recognized not only in his own country but throughout the world. Both the Government and the people are united in recognizing the desirability of immortalizing his memory. An idea is gaining currency that the Tenchosetsu of the late Emperor should be termed the (Chikoketsu) Festival of Modern Reorganization and should be observed as a public holiday.
